*Author for correspondence

When describing the family Hygrobiellaceae, Konstantinova & Vilnet (2010) did not cite the basionym, but a combination of the taxon, thus not fulfilling the requirement in ICN Art. 41.5 (McNeill *et al.* 2012) of a full and direct citation of the basionym. This is corrected here.

Hygrobiellaceae Konstant. et Vilnet, comb. et stat nov. Basionym:—Cephaloziaceae trib. Hygrobiellae Jørg., Bergens Mus. Skr. n.s. 16: 257, 1934 (Jørgensen 1934). ≡ Hygrobiellaceae Konstant. et Vilnet, *Arctoa* 18: 65, 2010 (Konstantinova & Vilnet 2009 [2010]) nom. inval. (ICN Art. 41.5; basionym not cited).

Acknowledgements

The Early Land Plants Today project (ELPT) has been generously supported in part by the Global Biological Information Facility (GBIF) Seed Money Award No.2007-41, activities facilitated in part by funding from the Biodiversity Synthesis Center of the Encyclopedia of Life (BioSynC), partial funding from the National Science Foundation (Award No's 0749762, 1115002), the Warwick Foundation, and the Negaunee Foundation.
