### Abstract

Nine new species are described in the formerly monotypic genus *Pseudolechriops* Champion: *P. longinoi*, **new species**; *P. dimorpha*, **new species**; *P. howdenorum*, **new species**; *P. davidsonae*, **new species**; *P. klopferei*, **new species**; *P. janeae*, **new species**; *P. alleni*, **new species**; *P. wrightae*, **new species**; *P. coleyaee*, **new species**. These species can be separated into two groups, the *megacephala*
