

Ramsdale, A.S. (2007) A new species of *Calochromus* Guérin-Mèneville (Coleoptera: Lycidae) from Fiji. *Zootaxa*, 1625, 43–46.

Page 43: This should be added at the end of the “Methods” section: "The holotype will be deposited in the Fiji National Insect Collection, Suva (currently held in trust at BPBM)."

Page 46: The acknowledgments section inadvertently omitted the following: "The Fiji Government Ministries of Environment and Forestry and the Schlinger Foundation are thanked for their support. Fieldwork for the collected specimens was based in part on support from the National Science Foundation DEB 0425790 for the "Fiji Terrestrial Arthropod Survey".
