

## Erratum

**Anker, A. (2011) “Four new infaunal decapod crustaceans (Caridea: Alpheidae and Gebiidea: Axianassidae) from Lizard Island, Australia, one of them also occurring in Moorea, French Polynesia”. *Zootaxa*, 2734, 1–22.**

The first sentence of the introduction (p. 1) should obviously read: The infaunal decapod crustaceans of Australia’s vast Great Barrier Reef remain relatively poorly known.
