ISABELA CARVALHO BRCKO, MARINUS STEVEN HOOGMOED & SELVINO NECKEL-OLIVEIRA (2013) Taxonomy and distribution of the salamander genus *Bolitoglossa* Duméril, Bibron & Duméril, 1854 (Amphibia, Caudata, Plethodontidae) in Brazilian Amazonia. *Zootaxa*, 3686 (4), 401–431.

Isabela Brcko noted a mistake in Figure 8 after publication. The corrected Figure 8 is presented here.

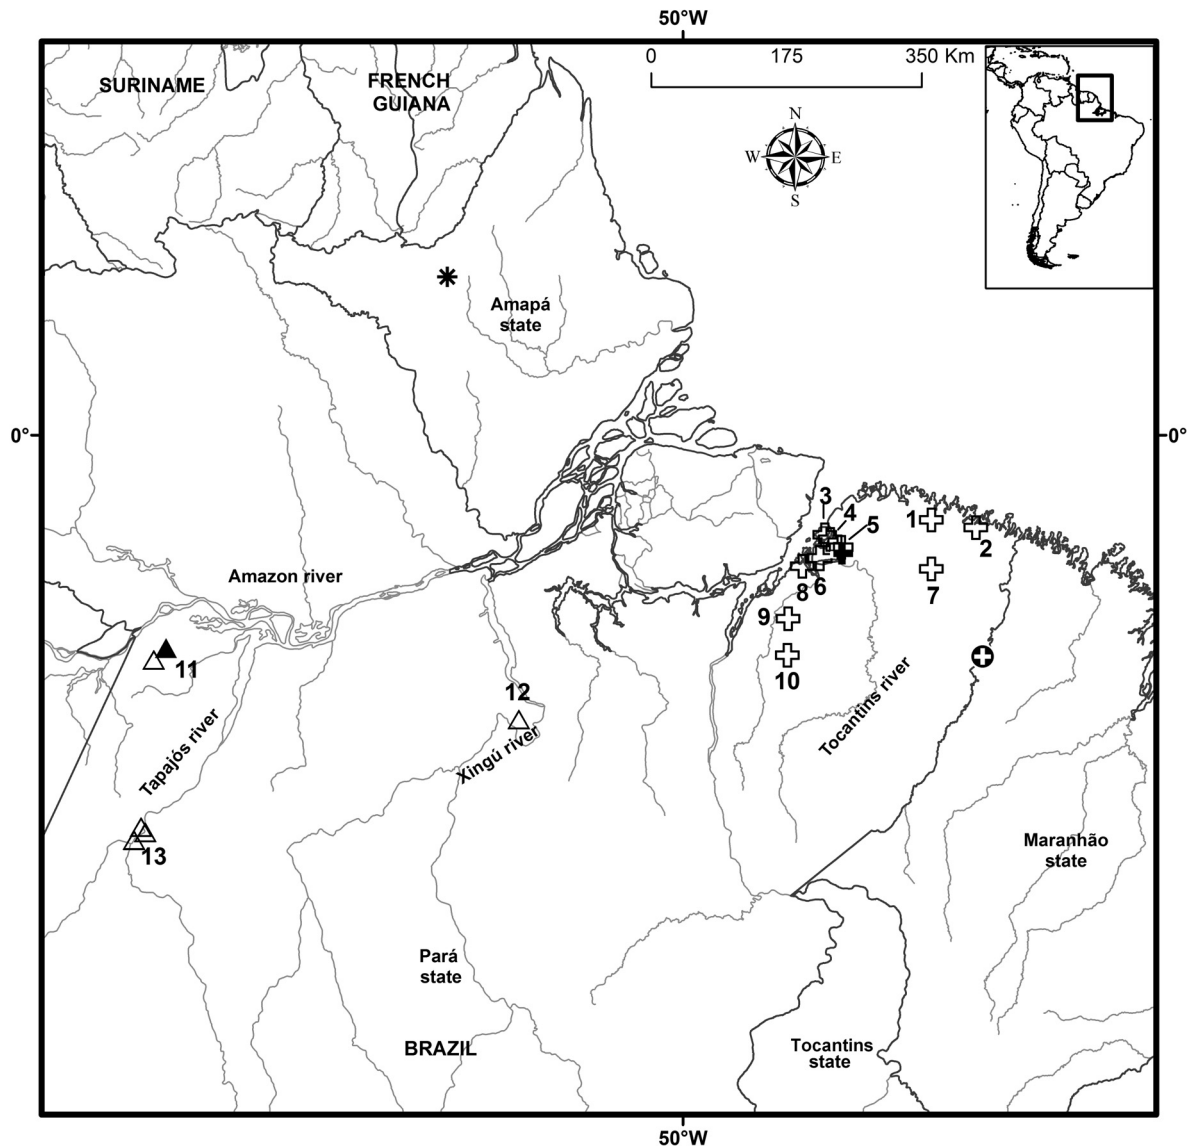

FIGURE 8. Distribution map of *Bolitoglossa paraensis* and *Bolitoglossa tapajonica* sp. nov. Type-localities: *B. paraensis* (Santa Isabel do Pará, black cross), *B. tapajonica* sp. nov. (Juruti, black triangle). Other localities: *B. paraensis* (open crosses: 1 Primavera, 2 Bragança, 3 Ilha de Mosqueiro, 4 Santa Bárbara do Pará, 5 Benevides, 6 Belém, 7 Ourém, 8 Barcarena, 9 Mojú, 10 Tailândia); *B. tapajonica* sp. nov. (open triangles: 11 Juruti localities, 12 Vitória do Xingú, 13 Itaituba localities). Specimen from Serra do Tumucumaque, Amapá indicated with asterisk. Specimens from Canindé, Pará indicated with circle with cross inside.
